

Druck-Sinteranlage

-1/+20 bar, Nutzraum Ø970x4000mm, Temperatur 1800°C

Pressure Sintering Furnace

-1/+20 bar, useable space Ø970x4000mm, temperature 1800°C

- Druck-Sinteranlage bis 20 bar
- vier Heizzonen mit Widerstandsheizern (1100 kW)
- regelbare Temperatur bis 1800°C, Arbeitsdruckbereich von Vakuum bis 20bar
- Nutzraum Ø970x4000mm
- Pressure sintering furnace, up to 20 bar
- Four heating zones equipped with resistance heater (1100 kW)
- Closed-loop temperature control up to 500°C, Operating pressure range from vacuum to 20bar
- Useable space Ø970x4000mm
