

Vakuum-Temperanlage

-1/+0,1 bar, Temperatur 1100°C, Nutzraum Ø250x1000mm

Vacuum Tempering Furnace

-1/+0,1 bar, temperature 1100°C, useable space Ø250x1000mm

- hohe Reinheit, da Retorte aus Quarzglas
- hohe Temperaturhomogenität durch 3 Heizzonen (PID-Regelung)
- Temperatur bis 1100°C
- halbautomatisches Beladesystem
- high purity, because retort made of fused quartz glass
- high temperature homogeneity by use of 3 heating zones (PID control)
- temperature up to 1100°C
- semiautomatic loading system
